GAGANA C P

PYTHON FULL STACK DEVELOPER

gaganacp2002@gmail.com | 9019941883 | https://www.linkedin.com/in/gaganacp/

Bommanahalli, Bengaluru - 560068

PROFESSIONAL SUMMARY

Python Full Stack Developer with a solid foundation in Django, Python, and front-end technologies. Experienced in developing end-to-end web applications and integrated IoT systems. Adept at managing the full development lifecycle, from robust back-end logic to responsive front-end interfaces. A collaborative problem-solver eager to leverage technical expertise to build scalable, user-centric solutions.

TECHNICAL PROFICIENCIES

Core Development : Python, JavaScript, Django, HTML5, CSS3, REST APIs
IoT & Embedded Systems : Embedded C, Arduino UNO, RFID (MFRC522), I2C LCD, DFPlayer Mini.
Databases : MySQL, SQLite.
Networking & Security : TCP/IP, HTTP, Network Security, Cryptography.
Tools & Platforms : VS Code, Git, GitHub, Arduino IDE.

PROJECT EXPERIENCE

Python Full Stack & Data Science Trainee | Genesis | **Apr 2025 – Mar 2026**

- Completed intensive hands-on training covering Python, Django, JavaScript, HTML, CSS, REST APIs, and relational databases.
- Applied Data Science and Machine Learning techniques (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn) to solve predictive modeling and data visualization tasks.
- Participated in professional development, focusing on technical communication and group discussions.

PROJECTS

- **Smart Bus: IoT-Driven Cashless Fare & Voice Alert System** **June 2026 – Sep 2026**
- *Arduino, Embedded C, RFID, Flutter, Firebase*
    - Developed an RFID-based automated fare collection system using Arduino UNO and NodeMCU ESP8266.
    - Integrated a Flutter mobile application, Firebase backend, live LCD display, voice alerts, and automated gate control mechanism.
- **Supermart Grocery Sales Analysis** **Jan 2026 - Feb 2026**
- *Python, Pandas, Matplotlib, Seaborn, Plotly*
    - Performed comprehensive exploratory data analysis (EDA) on sales and profit trends to deliver actionable business insights through data visualization.
- **SecureNote: Encrypted Personal Notes Web Application** | **Sep 2026 – Present**
- Python, Django, REST API, SQLite, JavaScript, Fernet
    - Built a Django web app for creating and managing private notes with **Fernet encryption**.
    - Implemented **authentication, ownership-based authorization, and REST APIs** with Fetch API.

EDUCATION

Master of Computer Applications (MCA) **Dec 2024 – Sep 2026**
Community Institute of Management Studies, Jayanagar, Bengaluru – 560041

- **Core Focus:** Cloud Computing, Agile Methodologies, Artificial Intelligence, and Cryptography.
- **Academic Project Enhancement:** Upgraded an IoT automated fare collection system with cryptographic data security, TCP/IP synchronization, ESP32/STM32 architecture, and NEO-6M GPS for real-time tracking.

Languages : English, Kannada
Certifications : Cybersecurity Analyst Job Simulation -Tata Insights (Forage).

- Python Full Stack Development | Genesis
- Unlox Edge Certification – Cyber Security (Course Completion) Credential ID: UNXCS-2026-9339
- Unlox Edge Certification – Cyber Security (Internship & Project-Based Learning) Credential ID: UNXCS-INT-9339
